WORK EXPERIENCE

2017 -
Present

PARTNER at Growwl

At Growwl I was essential to starting the company, created the MVP and current algorithmic backend. I own equity within the company along with two other founders. Currently I am still refining the backend.

2017

WEB DEVELOPER at A. Solomon Recruits

At A. Solomon Recruits I am developing an application called Pitch'd which utilizes the MERN stack. Pitch'd is an application aimed at simplifying the hiring process while also promoting diversity by abandoning resumes in exchange with human connections through video.

2017

FREELANCE WEB DEVELOPMENT at The New Yorker

My task was to create a branded experience for Amazon's new show, "The Last Tycoon" using Html, CSS, and Javascript. The experience introduces the premise and each character through a series of vertically sliding pages leading to a call to action.

2017

WEB DEVELOPMENT FELLOW at Startup Institute

At Startup Institute I am learning the skills required to work as a web developer in the innovation economy. This ranges from learning the 'hard skills', like Ruby on Rails and the MERN stack, to studying less code based skills like dealing with people who have different communication styles.

2016

WEB DEVELOPER at Quantitative Brokers

At Quantitative Brokers I developed a website using the MEAN stack and Webix tools in order to display the transaction cost analysis of treasury futures transactions in an online pivot table.

2015

IOS DEVELOPMENT FELLOW at Make School

At the Make School I learned to develop iOS games using Swift and Cocos2d. I developed three games named: Hello Zombie, Space Shooter Thingy, and Kitchen Balance.

2014

INTERN at Blue Matrix

Blue Matrix is the leading provider of enterprise software for investment research publication and distribution. At the company I was in charge of setting up data center equipment for deployment.

EDUCATION

2014 -
2018

HERRICKS HIGH SCHOOL

WHY ME?

I am not a "coder." Code was my first love, and I have grown up as a problem solver. I am not an implementer of solutions; I create solutions to problems using my extensive set of hard skills. Due to my immersion in the software world, I have not only learned how to program, but I have fundamentally taught myself how to think.

SKILLS

ReactJS	●	●	●	●	●
NodeJS	●	●	●	●	●
ExpressJS	●	●	●	●	●
MongoDB	●	●	●	●	●
Ruby on Rails	●	●	●	●	●
CSS/Html	●	●	●	●	●
